

# Differences of the requirements and tests of medium voltage cables

Between IEC 60502-2 and VDE 0276-620

## Overview and summary

This report shows the differences of the requirements and tests of medium voltage cables between VDE 0276-620 and IEC 60502-2. The following table is a summary with some significant differences in case of the required test conditions:

| Test                                    | IEC    |  | VDE     |   |
|---|--------|--|---------|---|
|   | part   | condition  | part    | condition   |
| partial discharge                       | 16.3   | $Q < 10 \text{ pC} @ 1.73 U_0 / \text{IEC } 60885-3$ | 3.1.3   | $Q < 2 \text{ pC} @ 2 U_0 / \text{IEC } 60885-3$          |
| bending + partial discharge             | 18.1.4 | $5 \text{ pC} @ 1.73 U_0 / \text{IEC } 60885-3$      | 3.3.1.2 | $Q < 2 \text{ pC} @ 2 U_0 / \text{IEC } 60885-3$          |
| voltage test                            | 18.1.8 | $4 \times U_0 4 \text{ h} / \text{no breakdown}$     | 3.3.1.6 | $3 \times U_0 4 \text{ h} / \text{no breakdown}$          |
| impulse test                            | 18.2.4 | 60 kV peak, 10 pos. + 10 neg. pulses IEC 60230       | 3.3.1.5 | 75 / 125 / 170 kV peak, 10 pos. + 10 neg. pulses EN 60230 |
| determination of hardness of PE sheaths |        |  | 3.4.4.3 | HD 605, 2.2.1<br>Shore-D Hardness $\geq 55$               |

Following you find a detailed comparison of the routine, sample and type tests that are required by VDE 0276-620 and IEC 60502-2.

## 1. Routine test

| Test                 | IEC  |  | VDE   |  |
|----------------------|------|--|-------|--|
|                      | part | condition  | part  | condition  |
| conductor resistance | 16.2 | IEC 60228 / --                                       | 3.1.1 | EN 60228 / HD 605 3.1.1                          |
| partial discharge    | 16.3 | $Q < 10 \text{ pC} @ 1.73 U_0 / \text{IEC } 60885-3$ | 3.1.3 | $Q < 2 \text{ pC} @ 2 U_0 / \text{IEC } 60885-3$ |
| voltage test         | 16.4 | $3.5 U_0 5 \text{ min.} / --$                        | 3.1.2 | $3.5 U_0 5 \text{ min.} / --$                    |
