The best solution for data cables

Reel-in-Box

FABER® dataline 1000

Reel-in-Box

You like practical solutions?

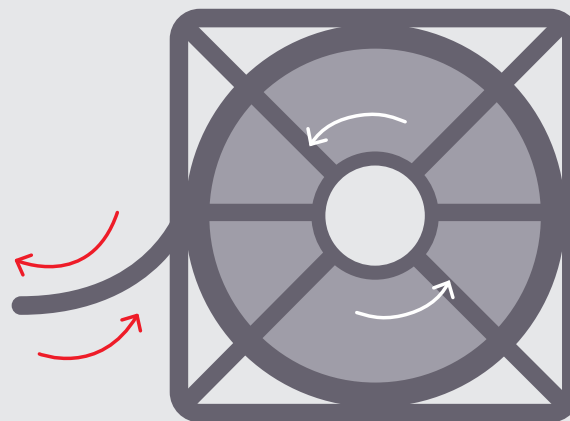

Then this product is exactly the right thing for you. Faber has developed the Reel-in-Box for the FABER® dataline 1000 product line.

Reel-in-Box

The Variations

The box is available in two designs: As a Simplex version with a cable length of 200 m (article no. 101043) and in the Duplex version with 100 m (article no. 101196). The category 7+ data cable comes on a plastic reel that is fixed inside a reinforced cardboard box, ensuring easy and knot-free unreeling.

The robust box sized 30 x 36 x 40 cm has a total weight of around 12 kg.
