REEL-IN-BOX.

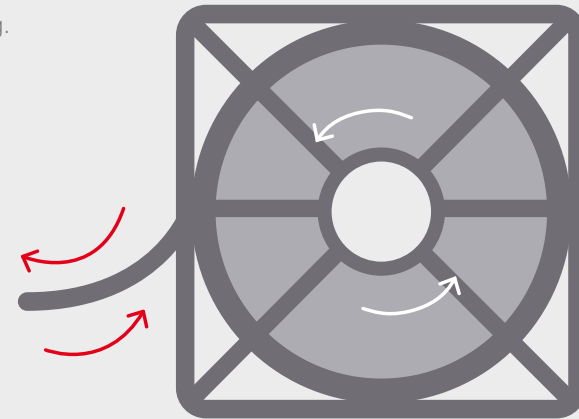

You like practical solutions?

Then this product is exactly the right thing for you. Faber has developed the Reel-in-Box for the FABER® dataline 1000 product line.

THE VARIATIONS.

The box is available in two designs: As a Simplex version with a cable length of 200 m (article no. 101043) and in the Duplex version with 100 m (article no. 101196). The category 7+ data cable comes on a plastic reel that is fixed inside a reinforced cardboard box, ensuring easy and knot-free unreeling.

The robust box sized 30 x 36 x 40 cm has a total weight of around 12 kg.

EVEN MORE BENEFITS.

✓ avoidance of soiling and transport damage at the cable by secondary packaging

✓ reduces cutting waste for short lengths
